

# Finding your way in the PDB

## The Protein Data Bank

Wednesday  
July 17  
9.30-17.00

CEITEC MU,  
Brno

Speaker:

**John Berrisford**

European Bioinformatic Institute  
– EMBL-EBI, Cambridge, UK

The Protein Data Bank (PDB) is the single global archive of experimentally determined three-dimensional (3D) structure data of biological macromolecules.

Both advanced users and beginners are welcome!

Learn about:

- PDB entry pages
- Searching the PDB
- Macromolecule pages
- PDBe tools
- PDBe-KB
- ... and more

Please register through  
[the registration form](#)

Capacity of the course is limited!
